Julian Gröger	3542588
Amrit Kaur	3532964
Maximilian Legnar	3544557

## Assignment 1.1

sample input/output

```
C:\Users\max\Documents\MasterStudium\Semester3\computer g
Press 'q' to quit.
Please enter a circumference
asdx
Error: Invalid Input.
Please enter a circumference
2.3
The area of a circle with r = 0.366067 is 0.420977.
Please enter a circumference
4
The area of a circle with r = 0.636639 is 1.273277.
Please enter a circumference
```

## Assignment 1.2

sample input/output

```
Please choose action:
Enter 1 to add mesh object
Enter 2 to remove mesh object
Enter 3 to list existing mesh objects
Enter 4 to exit the program
-----
3
List of Objects
-----
nothing to print
-----
```

```
Press 5 For Help
1
Enter name of Mesh
tree_1
Enter Number of faces: somwronginput
wrong input, try again
Enter Number of faces: 1000
Enter Number of vertices: 3000
Enter Scale factor: 1.1
Enter position X of Mesh: 0
Enter position Y of Mesh: 0
Object added to scene its id is: 1
Press 5 For Help
1
Enter name of Mesh
tree_2
Enter Number of faces: 1000
Enter Number of vertices: 3000
Enter Scale factor: 2.0
Enter position X of Mesh: 10
Enter position Y of Mesh: 10
Object added to scene its id is: 2
Press 5 For Help
3
List of Objects
-----
ID: 1
Number of Vertices: 3000
Center(0;0)
Number of Faces: 1000
Name: tree_1
Scale: 1.100000

ID: 2
Number of Vertices: 3000
Center(10;10)
Number of Faces: 1000
Name: tree_2
Scale: 2.000000

-----
Press 5 For Help
2
Enter id of mesh objects to remove
10
Object with id: 10 not found in the scene.
```

Press 5 For Help

2

Enter id of mesh objects to remove

1

Object with id: 1 removed from the scene.

Press 5 For Help

3

List of Objects

-----

ID: 2

Number of Vertices: 3000

Center(10;10)

Number of Faces: 1000

Name: tree\_2

Scale: 2.000000

-----

Press 5 For Help
